HIGH SCHOOL ROLLS OUT ENGINEERING PROGRAM

MCS Adds More 'E' to STEAM

We are excited to announce our High School program will be offering its first engineering course next year! We will also continue to expand our engineering course offerings in the future with a multicourse sequence. The first class in the roll-out will be Introduction to Engineering Design, which will be a full-year course. Students will have an opportunity to dig deep into the engineering design process – applying math, science, and engineering standards to hands-on projects. Students will work both individually and in teams to design solutions to a variety of problems using 3D modeling software, and use an engineering notebook to document their work. Stay tuned for more information on course descriptions and class schedules.

CO-CURRICULAR CLASS DEADLINE EXTENDED, ENROLL NOW!

We know everybody has been busy with the holidays, so we are giving everyone more time to sign up for co-curricular classes. The new start date is January 16-29. If you haven't already signed up your children, please consider doing so now. We are excited to have several new classes this semester, which offer your children the opportunity to try new activities. Click [here](#) to register.

LAWS OF MOTION

Introduce students to physics including 'Laws of Motion' with challenging LEGO projects. Using simple words, the Bricks 4 Kids company has developed lessons that use simple words to demonstrate concepts like 'inertia' and 'mass.' This class will help build a foundation in STEAM by presenting concepts that students will explore deeper in the years to come. Every class is a fun, enriching experience for your child using the classic bricks loved by generations of children.

CODING WITH KIDS

Give your child an opportunity to learn how to create their own cool programs! Coding with Kids classes teach kids real programming in a fun way. Fun activities – both 'on screen' and 'off screen' keep students excited and engaged about programming. Choose from either the 'Little Coders' class where students will be introduced to programming fundamentals, or the 'Game Development' class where students will learn to create their own games.

TENNIS

Get ready to play tennis after school! Here's a great way to keep your students active. Using age-appropriate equipment, students are taught to develop court awareness, timing and hand-eye coordination on a youth-size tennis court that is created on MCS' playground. Patient coaches help make tennis fun for girls and boys ages 5-10. Classes are divided by age level for instructional purposes.

CHESS CLUB

Chess Club provides a wonderful opportunity for students to learn a game that not only develops their mind, it also gives them a great way to connect with other students. Ten weeks of class instruction includes individualized curriculum and intra-school tournament competitions.

GOLF SQUAD | Grades K-2 | Grades 3-5

Here's a great opportunity for students to learn the fundamentals of golf after school. PGA professionals will instruct students in a social and fun environment. Students will learn about vocabulary, etiquette, safety, and social and technical aspects necessary to enjoy golf for a lifetime.

COOKING ROUND THE WORLD

Your student will have loads of fun learning about countries 'round the world by cooking and...eating the results of their hard work! By combining cultural education and culinary arts, children learn cooking skills while experiencing a country's culinary flavors. Cooking is 100% hands on - everyone dices, juices, chops, sautés and participates!

IMPORTANT UPDATE FOR ALL VOLUNTEERS

Parents, if you need to complete your Level I Volunteer application (helping in the classroom) or Level II (go on field trips) please contact [Cherie Dorsey](#) directly, and she will walk you through the process. Please remember if you are going on field trips or plan on chaperoning for any of the longer trips, like the Spring JH trips, you must have an up-to-date Level II Clearance. This process may take a few weeks or longer to complete. Please do not wait until the last hour to pursue this process. We don't want anyone to miss out on a trip and we will not make exception to this chaperone requirement. If you need to check your status or have any questions, Cherie is here to help. Bless you for giving of your time here at MCS! Respectfully, [Cherie Dorsey](#)
