PRAYER WAS LIFTED UP!

The courtyard was overflowing with families, students and staff on Wednesday for our annual Koinonia Breakfast and 'See You at the Pole' event. A hearty THANK YOU goes out to PAC for hosting such a beautiful time of fellowship and filling our hungry stomachs with a tasty breakfast. It prepared us for a special time of worship and prayer which was led by our JH ASB. You could imagine the joy that was coming from the heavenliest place as we covered our community, school and government in prayer!

ONLINE STUDENT SAFETY

From time to time we receive information that may be of benefit to you as you endeavor to keep your students safe while using a variety of devices. The attached link ([8 Dangerous Apps to Check for on Your Child's Phone](#)) is an example of this. Please also note, there is a wealth of information on technology safety on our website under the 'Tech Resources for Parents' tab.

JUNIOR HIGH NEWS

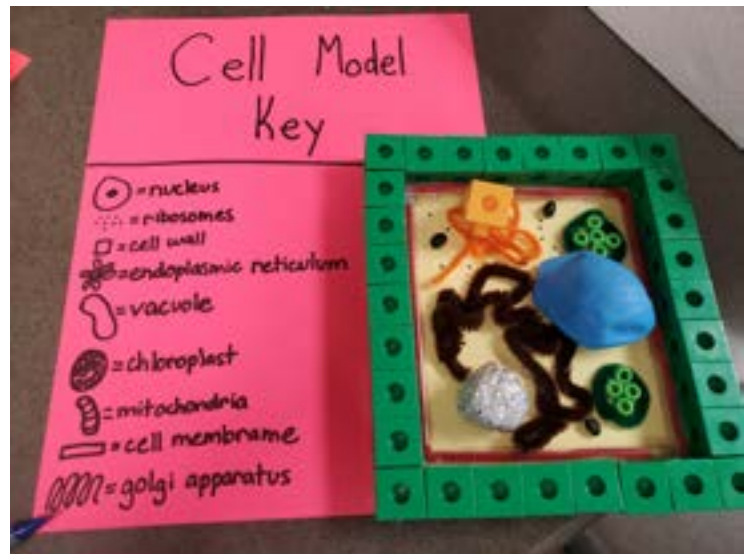

CATCH ME IF YOU CAN!

It's a new school year and what better way to kick it off than with a good old fashion game of Capture the Flag on our new fields. Coach Rodgers and Coach Gordon took the 6th & 7th grade PE classes for a spin on the new fields and their energy was palpable!

CELLS ON THE MOVE

As 7th grade continues their lessons on cells, the students were tasked with the assignment of creating a stop-motion video. They creatively showed how cells transport the necessary materials need to travel in and out of their membranes. Students also finished creating museum models for cells and their organelles!

BUDDING SCIENTISTS OF MCS

In Mrs. Vogel's 8th grade science class, students learned how synthetic elements are discovered with particle accelerators. The largest research site can be found on the border of France and Switzerland, called the Large Hadron Collider (LHC). It was created with the purpose of allowing physicists to test the predictions of different theories as well as answering the unsolved questions of physics. Students had to create their own models of particle accelerators. While the students' might not have been as large as the LHC, it still is an impressive task to accomplish!

PRESCHOOL NEWS

READY TO ROLL AT THE TRIKE-A-THON

A precious sight to see is the day Preschool has their annual Trike-A-Thon fundraiser. The proceeds from the fundraiser will be used to fulfill each teacher's wish list which include items such as: playground equipment, tricycles, themed classroom books, manipulatives for fine motor development, and gardening materials. It's all for a great cause—pledges are being taken until September 30! The support from parent volunteers always makes this event a huge success!
